Simple. Fast. Affordable...
And Tastes Amazing

WHAT IS IT?

It's a meal replacement shake that has an exceptional taste. If you tried other meal replacement shakes before, you'll see that there is nothing like Vi-Shape Nutritional Shake Mix. That's why it's the "shake mix that tastes like a cake mix"™. It has our unique Tri-Sorb™ protein blend of highly absorbable proteins, fiber, calcium, vitamins, minerals, digestive enzymes and more. Vi-Shape Nutritional Shake Mix is the perfect balanced meal!

WHAT DOES IT DO?

Vi-Shape Nutritional Shake Mix does what a good meal replacement shake should: it mixes easily with non-fat milk or soy milk to provide a tasty meal loaded with 20–22 grams of protein—the perfect blend to support lean muscle to help your body burn fat. And it contains less fat, sodium and sugar than many other brands! Mixed in water, it is a great snack on the go or for use after a workout to support your body's recovery process. Other shakes can be gritty, bitter or leave a metallic aftertaste. Vi-Shape tastes amazing in water or milk!

For bonus flavor and nutrition (as well as variety), blend with fresh or frozen fruit to create your own smoothies, or add the patent-pending Shape-Up™ Health Flavor Mix-ins for added variety. Add ViSalus Vi-Trim® to your shake for hunger control support.

KEY INGREDIENTS

Tri-Sorb™ Protein Blend—A unique Protein Blend of three high-quality proteins processed to remove fat, lactose, carbohydrates and isoflavones while providing pure, concentrated protein *and* hunger control

Non-GMO Soy Protein—heart healthy; processed to remove isoflavones

Fibersol™—a clinically tested and patented prebiotic fiber blend that keeps you feeling full without the gas that is a by-product of other types of fiber. Prebiotics help the "probiotics" or healthy flora in your system multiply and flourish. These help protect your immune system, support regularity and have other health benefits

Aminogen™—a patented and clinically tested enzyme blend that helps your body maximize protein and nutrient absorption
